

Pedini Photography & Video

Official photographers for the Royal Melbourne Show since 2004

We have been producing videos for shows since 2002. Our videos are fully digitally edited with soft music replacing all the background noise of a show. We do not talk on the video.

We add the following titles: Name of exhibit, owner, date of birth, sire and dam.

The video also contains headings throughout to mark where new classes begin and we also display a scrolling list of the In show award winners.

The DVD also has a menu that allows you to select different classes for viewing.

This video is available in PAL or NTSC (for viewing in the USA)

Will be available mid October

Contact us on - 0419 543 381
