

Judges Critiques for 2016 National Show

Thank you so much to the Cocker Spaniel Society of NSW for inviting me to judge at this prestigious event and to the exhibitors for a quality entry of dogs to judge. With some classes I was absolutely spoilt for choice, making some difficult decisions and some excellent dogs had to go unplaced.

I found the particolours were stronger overall in quality over the solid colours. The things that did concern me in both solids and particolours were the same things we currently have issues with in the UK and in other countries I've judged. These were lack of forechest and incorrect hind movement. Although profile movement was excellent on most, the hind movement on quite a few is too close with hocks virtually touching having no width between them. I was however delighted with the overall type & quality of the dogs, all temperaments were excellent and presentation was fantastic.
